[12-001-2174.pdf](#)

David and Liz,

As unbelievable as this reads, it appears that the Agency has had this package of questions for the record since July, 2012, from SEPW that originated from a hearing held March 22, 2012 on the FY 2013 President's Budget request.

As I discussed with David, from our review of the questions, it looks like the those questions targeted at ORD are programmatic questions, not specific to budget levels. I am forwarding this to you so that you can assign the questions to the appropriate ORD folks to prepare responses.

**The Agency has NOT indicated what the deadline for response will be in this email, but I assume from what they wrote, they will be under a very tight deadline.**

Please let us know if you have questions.

Thanks,  
Amy

Hello all -

This is providing you with advance notice that today we received the questions for the record from the 2012 hearing before the Committee on Environment and Public Works, held March 22, 2012. We are in the process of loading these questions into the OB data base and will send out official notification with a schedule shortly. OCIR is eager for the agency to complete these as quickly as possible due to upcoming confirmation hearings. We appreciate your continued patience as we all work through this unusual budget season.

Thanks.  
Pam
